

ST PETER'S COLLEGE
CATHOLIC SCHOOL FOR BOYS

SPC
SOFTBALL ACADEMY
EST 2010

The Academy aims to provide inspiration and an independent high performance avenue for promising players at our College. We will foster an internal culture of creativity and innovation that generates a leading edge learning environment for the College and its Softball fraternity.

- The SPC Softball Academy is NZ's first truly Softball-specific School Academy.
- Softball at SPC has experienced significant highs over many years – including winning the inaugural NZ Secondary School Championship in 1980 and winning the AKL Championship 20 times.
- Our aim is to lay a solid foundation to prepare our athletes holistically – we will foster the Schools ethos of hard work, excellence, dedication and heart.
- For players, there is a high degree of focus on position specific training, mental toughness, softball intelligence and skill development.
- Our alliance with the New Zealand Softball community allows us to use the best and most current coaches available. The coaching staff at the Academy represents some of the most influential players and coaches in World Softball.
